Chloe Cole

Transgender Detransitioner

"Restoring Gen Z's Identity"

REGISTER HERE

Today's youth are vulnerable to the lies that distort identity and destroy lives. Chloe's testimony reveals the real cost of this deception and points us back to the only source of redemption - Jesus Christ! Chloe Cole underwent medical "transition" of her biological sex as a female from ages 13-16. After informing her parents that she identified as a transgender boy at 12, she was diagnosed in July 2017 with dysphoria by a "gender specialist" the following month.
